

# Marshall\_V vs. Strader @ 3 km

SCEC CSM, v.0.1.5-made with GMT (twb@ig.utexas.edu)-12/28/16

x: dot product of most compressive eigenvectors,  $e_3$

A = Marshall\_V vs. B = Strader at depth 3 km

range:  $-1 < x < 1$ , perfect match:  $x = 1$ ,  $\langle \rangle$  is geographic mean
