Smith-Konter vs. NeoKinema @ 3 km

misfit, $\langle x \rangle = 0.13$

SCEC CSM, v.0.1.5-made with GMT (twb@ig.utexas.edu)-12/28/16

x: ***normalized dot product of the deviatoric tensors***, τ

A = Smith-Konter vs. B = NeoKinema at depth 3 km

range: -1 < x < 1, perfect match: x = 1, $\langle\rangle$ is geographic mean

$$x = |\tau_A \cdot \tau_B|/(|\tau_A||\tau_B|)$$
